**SiteScape Hosts Webinar to Explore its ICEcore Open Source Collaboration Suite**

***Learn How ICEcore and its Open Source Community Can Meet Your Collaboration Needs***

**What:** A webinar to learn how SiteScape's new [ICEcore open source project](#) provides opportunities for users, developers and partners alike to solve problems using the ICEcore collaboration environment. Learn the benefits of open source, why SiteScape chose this approach for the ICEcore platform, and how the community can help drive its direction for the future.

**Who:** [SiteScape, Inc.](#) is a premier provider of integrated, Web-based team collaboration and [real-time conferencing solutions](#). [SiteScape's ICEcore](#) is the first collaboration suite built on Open Source. ICEcore unifies team workspaces with Web conferencing, while leveraging enterprise social software for user adoption.

Presented by Brent McConnell, Director of Community Management, SiteScape.

**When:** Thursday, January 10th at 11:00 a.m. ET

**How:** To register for this complimentary webinar, please click [here](#) or visit [www.sitescape.com](http://www.sitescape.com) for more information.

Download ICEcore Open Source now and start collaborating - [http://www.icecoreopen.org/web/icecore\\_guest](http://www.icecoreopen.org/web/icecore_guest)

**About SiteScape**

SiteScape, Inc. is committed to helping business, government and military organizations discover the benefits of team collaboration. Our integrated, web-based solutions—from the widely installed SiteScape Forum® products to our new ICEcore™ and ICEcore Enterprise collaboration suites—meet the communications and program management needs of even the largest distributed teams. Combining highly configurable workspaces, workflow-driven collaboration capabilities, real-time or asynchronous communication, and the latest social networking tools, SiteScape solutions bring together people and content in a single, easy-to-use environment that drives increased efficiency, enhanced productivity, and more successful project outcomes. Leading organizations such as Shell International, the U.S. Centers for Disease Control, Sentara Healthcare, the European Space Agency, the U.S. Navy, and Starwood Hotels & Resorts have chosen SiteScape as their preferred collaboration solution. For more information please visit [www.sitescape.com](http://www.sitescape.com).
